PROFILE

A self-motivated computer engineering student who can gain so much more experience through an internship. Remarkably focused on a single task that can be completed quickly.

SKILLS

- Website Development using HTML5, CSS, Bootstrap, JavaScript, PHP, and MySQL
- Designing website layout and mobile layout using Figma and Adobe XD
- Time flexible depends on the prior commitment.
- Can communicate well.
- Basic knowledge on C and C++
- Leadership skill gained in several university and school projects.

PROJECTS

Website Development project: koliTECH.net/kolitech

- Designed a solutions company website, a clone that is inspired by Science Soft website. The difference is in koliTECH includes workshop for aspiring programmers.
- This website was developed using HTML5, CSS, JavaScript, PHP, and MySQL only.
